### General Recommendations for the Trip:

Clothing: tropical and light cotton shorts or pants for the day and long pants and long-sleeved shirts for the evening.

Fishermen hat or cap, we recommend insect preventing hats

Sneakers, ankle-length leather boots, or ankle-length rubber boots

It is obligatory to bring mining or caving flashlights.

Bring rechargeable batteries for flights and cameras.

To recharge the batteries in your flashlights, cameras, cell phones, radios or satellite phones, we inform you that in Colombia 110 volt power is used.

Any medicine you normally require. Insect repellent.

Sun block with minimum 50 spf.

You must take 3 pills of vitamin B for 10 days prior to the trip as well as throughout the trip. It is recommended to additionally take a strong injection of vitamin B the day before the trip.

MANDATORY: Take vaccines against Yellow Fever and Tetanus.

It is also mandatory that you acquire your Vaccination card and bring it to the trip.

Take plastic bags, such as Ziploc(s) to shelter your documents and prevent that they get wet.

Larger but sealed bags of the same material are suggested to store wet clothes and prevent fungi. Other bags can be used to protect electronic equipment.

You MUST complete the form of Ecological Responsibility, where you declare that you understand, compromise and accept that **all your catches will be returned** to their environment once they are documented. There will only be exceptions previously authorized by the organizer, one fish per fishermen.

The days that we will be in the jungle you will barely need anything, perhaps a beer or beautiful hand-crafted souvenirs produced by indigenous tribes, as well as tips (not mandatory) to tour guides and boaters.

We recommend to take Colombian pesos such as \$2.000, \$5.000, \$10.000 up to \$20.000 (pesos). These are equivalent to: 1 USD, 2.5 USD, 5 USD and 10 USD.
